1040SCAN vs. ProSystem *fx* Scan Comparison

1040SCAN automates more than five times the documents of ProSystem *fx* Scan with Autoflow. 1040SCAN includes our award-winning workpaper system, SPbinder, to reduce preparer and reviewer time. Only SurePrep offers an optional OCR data verification service to maximize efficiency (no more CCH Autoflow validation). When combined with SurePrep's client collaboration platform, TaxCaddy, 1040SCAN delivers the most automated and streamlined 1040 process for both you and your clients.

1. SPbinder is SurePrep's award-winning workpaper system. It supports Outlook emails, Excel, Word, PDF, and TIFF files. ProSystem *fx* Scan offers PDF workpapers only.
2. 1040SCAN PRO and 1040SCANverify only.
3. With any scan-and-populate software, it's best practice to verify OCR'd source document data for accuracy before it exports to tax software (CCH Axcess Tax). Optionally, SurePrep can perform this verification for you.
4. In order to discover new 1099-B formats as early in the tax season as possible, SurePrep offers a Pre-Verification program at no cost.
